

NANCY'S MONTHLY FORECAST

2014 is ruled by the vibration of the Universal Number Seven. This year is a very fertile time for us to learn to create our desired realities by both mastering our thoughts and transcending our thoughts to access the realms of the unseen through our extrasensory abilities.

How January 2014 Adds Up:

At the end of 2008, the planet Pluto entered Capricorn for a 16 year journey and initiated a time when the misuse of power by individuals and groups affiliated with large corporations, financial institutions, and governments would be exposed and corrected. This year of 2014 which has the prevailing universal vibration of the number Seven should definitely be a year when additional instances of greed, corruption and mishandled financial dealings are discovered and brought to public attention. This January, especially, can well be a month of the "truth revealed" as Eight represents justice and a balance sheet which must be paid in full. We will see a higher incidence of any litigation already pending (particularly if begun November 2013) being brought to just settlement. This month and next month (February 2014) are especially appropriate for this.

For us individually, we are likely to have projects and issues relevant to this past November resurface for resolution particularly if related to matters of law, finance or work. What occurs this month is going to be connected in some way to activities taking place in October 2014 and during 2015. Thus it's an appropriate time to create your "vision" for your future during this time. Our strength this month and this year is the strength of our thoughts to create reality, so any classes in mind control and positive thinking will hold you in good stead as well as learning to integrate your mind and heart to work together to unlock Divine secrets of the Universe.

If you have the Numbers One, Seven and Eight showing strongly in your natal numerology chart or if you are transiting a Seven Personal Year, the above possibilities are even more likely to be part of your experience this month.

Important Dates This Month

| | |
|--------------------------|------------------------------------------------------------------------------|
| Wed., January 1, 2014 | New Moon in Capricorn |
| Wed., January 15, 2014 | Full Moon in Cancer |
