

NANCY'S MONTHLY FORECAST

2016 is ruled by the vibration of the Universal Number Nine, the vibration of of Universal love and brotherhood. Of all the single digit numbers, Nine vibrates at the highest level. It mandates tests of the soul and mastery of our experiences of the past eight years. Our path can present major challenges, but our rewards can be equally large. Keeping love, compassion and forgiveness in our hearts allows us to transit Nine's energy in a way that helps us to pass our tests with greater grace and ease.

The Number Codes for April

April 2016 is both the fourth month of our calendar year and a Universal Four month in our Nine Universal Year. The Number Four is aligned with structure, diligence, organization, finances, security as well as thrift and practicality.

April's (the word's) Soul Number is Ten (reducing to One) which prompts us to start over and/or begin a new cycle in our lives. As April also always includes the sun in Aries, the start of a new astrological year, this factor underscores that it is perfect timing for new beginnings.

April's (the word's) Letter Sum is Eleven, the number of peace, relationships, and tests of soul mastery. Eleven can also signal a gateway or portal of transformation, thus being a signpost of life change.

How April adds up:

When Four is a dominant vibration, it's always a message to "get down to work!" This can be a message relevant to your profession or job and/or to maintaining the cleanliness, order and safety of your home. Four also relates to attention to our health, particularly with regard to skeletal, neuromuscular and dental issues.

Because we are in a Nine year of endings and completion, it is an especially appropriate time for cleaning out "old stuff" -- in home, in body, mind and emotions. This is also a good time to invest in necessary home repairs.

Four also relates to finances, the financial industry and investments. With our Nine year number, we are advised to review our financial circumstances and instigate any adjustments that are mandated -- whether it's getting rid of unproductive investments, extraneous expenses or re-doing our budgets to reflect a realistic level of spending. As it is tax time in April, we may be required to pay more than we had anticipated. Four can often impose unexpected expenses.

In summary, April as a Four month is "labor-intensive" -- not a month for playtime -- sort of like the old adage, "Eat your vegetables first; then you can have dessert."

Take Note: Mercury Retrograde begins (second time this year!) on April 28 with its shadow period beginning up to three weeks' prior. Thus you benefit by doing your taxes as early as possible (if you didn't complete them in March) and avoiding any financial contracts and agreements until the second or third week in June.

However.....this is a most appropriate time to research and review changes that will benefit you as well as to complete old projects, clear clutter and dispose of everything that no longer serves you.

The Bottom Line This Month --

What obstacles are in the way of having your life be the way that you choose? Is it your health? Is it your financial circumstances? Is it your career situation? Is it a home that doesn't suit you in some way? Whatever your answer(s), this is an excellent month to roll up your sleeves, get out your cleaning supplies (literally or figuratively) and set to work ridding yourself all the physical or psychological grime that is obscuring your way to a happier future. Make a list of the steps you will take to achieve your goal and get to work. Even if you are taking baby steps, they will add up to a lot of progress in the long run. And don't forget to ask for help if you need it -- from family, friends, co-workers. Also your angel friends as well are waiting for you to ask for assistance. To quote the Nike slogan: "Just do it" -- and enjoy the journey and results.

A special note: Earth Day on April 22nd is especially appropriately timed this year as we in a Four Month. Four is the number that pertains to our resources which ultimately we receive due to the generosity of Mother Earth. As our Earth's health and resources are severely endangered at this point in time, taking time to send blessings and healing energy to our Earth will be energy and time well spent.

See you in May when we get to move forward.
