

## NANCY'S MONTHLY FORECAST

2014 is ruled by the vibration of the Universal Number Seven. This year is a very fertile time for us to learn to create our desired realities by both mastering our thoughts and transcending our thoughts to access the realms of the unseen through our extrasensory abilities.

### IT'S MAY – TIME TO PLAY!

#### The Number Codes for May

May 2014 is a **Three Universal Month** with dominant energies for **Love, Beauty, Communication, Creativity, Inner Child Connection, Heart Energy Connection and Healing.**

Our **Seven Universal Year** focuses on **Divine Revelations, Truth Revealed, Healing and Convalescence, Preparation for Change, the Power of Mind and Intuition**

May (the calendar month) is the **Fifth Month of 2014** which brings with it the energies of **Birth, Renewal, Change, Innovation, Sensuality, and the Unexpected.**

May (the word's) **Soul Number is One**, the number of **Initiation, New Beginnings and Independence.**

May (the word's) **Letter Sum is Three**, the same as our **Universal Month Number** above.

#### How May adds up:

Back when I first began my study of numerology thirty years ago, my teacher explained to me that after enduring the dramas and traumas of their **Two Personal Year**, God saw to it that these individuals were rewarded with their **Three Personal Year** which offered a period of leisure, recuperation and recreation. "When you transit **Three** energy," she stated, "you don't want to work." I have observed that those who were transiting **Three** energy and opted to conduct their lives at their customary labor-intensive pace were often given a course correction due to illness or accident that forced them into a state of passivity.

Since we have just collectively transited an **Eleven/Two Universal Month** filled with an assault of massive cosmic shifts, it is appropriate for all of us to welcome the soothing **Three** vibrations of May with open arms. Since the **Three** energy and the year's **Universal Seven** energies both urge us to relax and smell the roses, if it were up to me, I'd issue an edict that outlaws work and mandates lovely vacations for all beings. Since that is obviously not going to occur at this point in our cosmic evolution, I suggest that you can help things along by making your life the very best it can be this month by giving yourself – and others – the gift of love, joy, laughter and play.

Those of you who have **Four** and **Eight** vibrations dominant in your chart and/or are transiting a **Four** or **Eight** Personal Month, may find yourselves challenged to take it easy. Take it from one who knows (many **Four's** in my chart and a birthday that is **8-4**), you'll get further ahead this month by giving yourselves time off to indulge in favorite pastimes and things that make your heart skip a beat with anticipation.

**Three** energy connects us with our hearts and our inner child. Its vibration is innocent, happy-go-lucky, playful and creative. Truly, if we were all connected to this energy on an ongoing basis, our world would be a totally different place. Love and laughter would prevail, along with kindness and generosity to others.

**Three** brings with it the energy of enormous generosity. This month you are encouraged to not only give from your heart to others (especially anyone recovering from a traumatic time in April) – but also give to yourself something that your heart calls out for – but which may not be on your list of planned expenditures. It can be something as simple as a bouquet of flowers, a new wardrobe addition, a massage or other spa treatment, theater or concert tickets, entertaining friends at home or in a restaurant – or just giving yourself a day off if you've been working very hard.

#### Important Dates This Month

Wednesday, May 14	Full Moon in Scorpio
Monday, May 19	Mars Retrograde Ends
Wednesday, May 28	New Moon in Gemini

#### The Bottom Line This Month –

Give yourself a month of "playtime". **Three** in Tarot is signified by "The Empress" card showing a woman who is surrounded by beauty and abundance. Whether you are male or female, treat yourself – and others – royally. You might even start some new habits that will open new sources of abundance and enrich your life in magical ways. At any rate, that is my wish for you this month!
