

NANCY'S MONTHLY FORECAST

2015 is ruled by the vibration of the Universal Number Eight. Eight governs money, power, the sexual principle, leadership, strength, justice, manifesting and mastery of all life skills. It also relates to large corporations, institutions, heads of state and the branches and functions of government.

N-SIGHTS FOR JUNE 2015

TURNING POINTS – A CHANGE IN FORTUNE, TOO?

The Number Codes for JUNE

June's Universal Month Number is Five, which we arrive at by adding the Eight from our Universal Year Number to Six, the number assigned to June as the sixth month of our calendar year. The sum is Fourteen which we further reduce to Five. Five as a number is a seeker of freedom and change, striking out to explore new territory and unafraid to gamble and take risks. Five rules the senses, sexuality, birth and creation.

June (the calendar month) is the Sixth Month of 2015 which brings with it the energies of love and well being (which is why it's a month that we associate with weddings.)

June's (the word's) Soul Number is Eight, the same number as our Universal Year. (See above.)

June's (the word's) Letter Sum is Fourteen which reduces to Five, the same number as our Universal Month Number this year. See above.)

How June adds up:

The key word for this month is "change." But do you have control? With Mercury retrograde through the 11th and the shadow remaining the rest of the month, unstable and unpredictable energies can be rampant. Add this effect to the Five which can represent sudden unexpected events, upheaval and chaos, and you are advised to adopt the Boy Scout motto of "be prepared" for whatever comes down the turnpike. I do not intend this message to instill fear, however. Remember that even unwelcome and unanticipated events are known to usher in constructive reform and new ways of being.

Mercury retrograde advises us to redo what hasn't worked – and Five is synchronized to new beginnings. So – if there is something you'd like to change, this can be a month to get the ball rolling. With this year's Universal Eight energy dominant, change (initiated or unexpected) is more likely to be related to matters of business, career, finances and legal contracts and proceedings.

Without Mercury retrograde, the Five and Eight at play could bode really well for major purchases such as cars and computers, buying and selling of property and investments and career changes as well. Mercury retrograde discourages these activities. If you find that circumstances motivate you to make changes, make sure you check the fine print in all contracts and agreements, especially regarding anything that appears to be written in stone.

Tuesday, June 16, 2015 New Moon in Gemini

Wed., June 17, 2015 Ramadan Begins

Sunday, June 21, 2015 Summer Solstice

Father's Day

The Bottom Line This Month –

Be prepared that some kind of change, most likely an unanticipated one, can easily show up on your doorstep. For example, I know of two instances in the past when clients were in an Eight Personal Year and came to a Five Personal month, their jobs were abruptly terminated. On the other hand, although I can't personally testify to this, Eight and Five can produce an unexpected financial windfall such as an inheritance, gift of money or winning lottery ticket. Don't we all love those kinds of events!

Because of Mercury being retrograde I do not advise that you initiate change if you can avoid it as the likelihood of unexpected complications is high.

As always, keep your thoughts as positive as can be and be in gratitude for the good in your life. One way or another we're going through a portal so let's see it as progress in our life journeys even though the immediate benefits may be obscured. See you in July – and may you attract the blessings of good fortune en route!
