The Number Codes for June

June 2016 is both the sixth month of our calendar year and a **Universal Six** month in our **Nine Universal Year**. The **Number Six** is aligned with love, romance, family, health, abundance, well-being and community.

June (the word's) **Soul Number** is **Eight**, the number of **Balance, Justice, Affluence and Mastery**.

June's (the word's) **Letter Sum** is **Five**, the number of **Fertility, Birth, Freedom and Change**.

How June adds up:

As we are transiting a year of endings, each month of our **Nine Year** offers us a heightened opportunity to say good-bye to those aspects of our lives that drain our energy and prevent us from heading in the direction of our dreams.

This June, especially, the spotlight is on relationships. Is there one that you'd benefit from ending? Sometimes the endings are forced on us as a loved one leaves our life – either by choice or by passing on to the world of Spirit.

June is traditionally a month that we celebrate weddings. There may be a higher than usual number of June weddings this year. There also could be a higher than usual number of separations and divorces. Transiting a **Six** (especially with a **Nine**) often forces us to confront relationship issues and come to some resolution.

The settlement of pending legal contracts or litigation is more likely this month. We may also see an above average number of home sales.

Six relates to diet, nutrition and well being. Is this the month that you will choose to say good-bye to some unhealthy eating habits? -- Or seek solutions for health-related issues? On the other side of the coin, it's also a great month to focus on using and upgrading your culinary skills to nourish those close to you.

Six is the number of community and government. With our **Presidential** election slated for **November**, June may be a banner month for election-related news.

Six encourages us to look after the welfare of others. This is an especially appropriate month to offer assistance to those you care about – or give through volunteerism or a philanthropic cause.

Finally, **Six** is equated with home and beauty, so it can be a banner time to beautify your home, work in your garden and nurture your mate, family and friends.

Remember, the overriding influence of **Six** is love – so keeping love first and foremost in mind in everything you do ensures that you are choosing the most harmonious path for your soul this month – and for always as well.
