N-SIGHTS FOR JULY 2015

IMPROVING THE ODDS FOR WELL BEING

The Number Codes for JULY

July's Universal Month Number is Six, which we arrive at by adding the Eight from our Universal Year Number to Seven, the number assigned to July as the seventh month of our calendar year. The sum is Fifteen which we further reduce to Six. Six represents well being in all the dimensions of our lives including romantic love, family, home, health, nutrition, beauty, financial abundance, safety and security.

July (the calendar month) is the Seventh Month of 2015 which asks us to slow down and restore our energies. Typically July is considered a prime vacation month especially to escape to the beach or the mountains which are locales that resonate to Seven's vibrations.

July's (the word's) Soul Number is Three which is associated with communication, creativity, socializing and recreation.

July's (the word's) Letter Sum is Fourteen which reduces to Five, a number which encourages us to get out of our routine and seek new horizons.

How July adds up:

In its best sense, the nurturing vibration of this month encourages us to live and savor the most abundant life that we can manage to create.

Do you want loving and supportive relationships?

Do you desire beauty and material possessions?

Do you crave delicious and nutritious foods?

Is vibrant health a priority?

Is optimum and ongoing financial flow on your wish list?

All these things and more are part of the Six and Eight possibilities as single numbers. When you put them together, the sky's the limit!

Pick one objective from the above list and let yourself be guided to actions and activities that contribute toward your manifestation. If you are called, ask Archangel Raziel (who holds the secrets of manifestation) and Archangel Ariel (who helps with manifesting earthly abundance) to assist you in achieving your goals.

This is also an excellent month for estate planning and looking after the well being of your family. Mercury is now clearly out of retrograde mode, so wills, trusts, contracts and agreements are more likely to be created both accurately and in ways that serve the best interests of all concerned.

Conversely, it's an especially appropriate time to offer your support and assistance toward the well being of those you care about.

These can be not the easiest of tasks if you find yourself challenged in any way – yet finding one good thing to receive and one good thing to give on a daily basis can end up making a huge difference to yourself and others. Try it and see!
