

# NANCY'S MONTHLY FORECAST

2017 resonates to the Number 10 which is a number of change and energy shifts. The Ten's base number is One, which, in its best sense resonates to leadership, originality and invention. Interpreted negatively, One's energy can result in anger, aggression, violence and explosive occurrences.

In a One year, things are initiated, but seldom completed. In fact, as we are entering a new nine-year cycle, we may not get the 'big picture' of this year's events until 2025. One encourages each of us to speak up and be heard.

One is a number of manifesting. It is shaped like the magician's wand. Some say that our thoughts and desires can manifest with lightning speed this year. This can be marvelous as long as your thoughts and desires are positive and authentic to you! Practicing "the power of positive thinking" can definitely pay off in a big way.

## N-SIGHTS FOR JULY 2017 BEHIND THE EIGHT BALL

### The Number Codes for July

The Universal Number Code for July in this year of 2017 is Seventeen ( $10 + 7 = 17$ ) which reduces to the Number Eight, the number of strength, courage, endurance, balance and manifesting on the physical plane.

The Number Seventeen is considered a harbinger of good fortune and is indicative of manifesting through meditation and Divine revelation.

July (the calendar month) is the Seventh Month of the year. It asks us to slow down and restore our energies. Typically July is considered a prime vacation month in the northern hemisphere -- especially to escape to the beach or the mountains which are locales that resonate to Seven's vibrations. Seven also encourages us to create through mental and metaphysical pursuits. This harmonizes with the dominating number Seventeen for our month's Universal vibration.

July's (the word's) Soul Number is Three which is associated with communication, creativity, socializing and recreation. Three is a number that encourages play -- another reason that July is a good vacation month.

July's (the word's) Letter Sum is Fourteen which reduces to Five, a number which encourages us to get out of our routine and seek new horizons.

### How July Adds Up:

Our messages for July exist within the codes of Number One and Number Eight. Literally translated, they offer clear instruction: Here are some that come to mind:

- Initiate Manifesting
- Initiate Justice
- Initiate Business Planning
- Initiate Financial Planning

Perhaps other insights will present themselves to you if you stop to contemplate these numbers. Also substitute the words "mastery" and "tests" after the above phrases and see if any resonate with you.

The two circles of the Number Eight represent "balance" -- and so this month may also involve you in the following:

- Balance of male and female or yin and yang energies
- Balance of karma
- Reap rewards for past efforts

Both One and Eight contain strong energies and determination. When out of balance, they can result in ego trips and power plays in your life and in our collective culture. We can't control the latter, but we can each take steps to create constructive use of these vibrations in our own lives. Even though subtle, our actions do influence prevailing currents of thought and behavior.

Eight at the level of Seventeen mandates mental effort and focus, research and spiritual connection. Activities this month require focus and precision to achieve your goals. The work must be done. There are no shortcuts.
