

NANCY'S MONTHLY FORECAST

2017 resonates to the Number 10 which is a number of change and energy shifts. The Ten's base number is One, which, in its best sense resonates to leadership, originality and invention. Interpreted negatively, One's energy can result in anger, aggression, violence and explosive occurrences.

In a One year, things are initiated, but seldom completed. In fact, as we are entering a new nine-year cycle, we may not get the 'big picture' of this year's events until 2025. One encourages each of us to speak up and be heard.

One is a number of manifesting. It is shaped like the magician's wand. Some say that our thoughts and desires can manifest with lightning speed this year. This can be marvelous as long as your thoughts and desires are positive and authentic to you! Practicing "the power of positive thinking" can definitely pay off in a big way.

N-SIGHTS FOR AUGUST 2017

THE END OF AN ERA

The Number Codes for August

The Universal Number Code for August in this year of 2017 is Eighteen ($10 + 8 = 18$) which reduces to the Number Nine, the number of completion, philanthropy, and universal love and brotherhood. The Number Eighteen corresponds to The Moon Tarot card. Our message here is to proceed with caution as the darkness conceals potential dangers. We are in transition and headed toward the birth of a new era.

August (the calendar month) is the Eighth Month of 2017. Thus August is always imbued with Eight's energies of strength, balance and mastery along with focus on business and finance.

August's (the word's) Soul Number is Six which aligns with love, abundance and well being as well as the material world in general.

August's (the word's) Letter Sum is Seventeen which reduces to Eight, offering us the ability to channel Divine wisdom that helps us manifest our desires.

How August Adds Up:

When Nine shows up, it always indicates endings, completion and tests of character. This is true for both individuals and group energy. This August we are transiting a Nine Universal energy as a prelude to September's One vibration of new beginnings and the start of a new nine year cycle.

So—even though 2017 has been termed a One Universal Year, it doesn't officially begin until September. The past eight months we have had to deal with the vestiges of not only 2016 energy, but also the vibrations of the last nine year cycle which began in 2009.

In spite of finally being able to say "good riddance" to the things that brought us challenge (and developed character!) this August has the potential to make navigating the cosmic jolts a type of firewalk, especially for those of you are sensitive to energy shifts.

The two historic eclipses and Mercury retrograde (see below) usher in the new energy that awaits all of us.

So – what's the best course of action while we are in transition?

Here are some ideas for you:

Finish up old projects.

Clear up clutter and discard possessions no longer valued or used.

Reconnect with old friends.

Take it easy. Get extra rest.

Be kind and generous.

Forgive old grievances.

Be grateful.

Although we may be visited with events and circumstances we would prefer to forego this month, bear in mind that Nine energy is the energy of Universal love. The Universe wants you to feel it! Watch for gifts and rewards to show up unexpectedly.

This includes your possessions and your relationships. Keep gratitude in your heart for any and all good that comes your way. Kindness and generosity always hold you in good stead and especially so this month.
