

NANCY'S MONTHLY FORECAST

2014 is ruled by the vibration of the Universal Number Seven. This year is a very fertile time for us to learn to create our desired realities by both mastering our thoughts and transcending our thoughts to access the realms of the unseen through our extrasensory abilities.

THE POWER OF SEVEN

The Number Codes for September

September 2014 is a Seven Universal Month in a Seven Universal Year.

This year and this month find our focus on divine revelations, truth revealed, healing and convalescence, preparation for change, and the power of mind and intuition. All of these possibilities are amplified in September when the Seven energy is at its zenith.

September (the calendar month) is the Ninth Month of 2014. Nine represents completion and endings as well as tests of character and Universal love and service to humanity.

September's (the word's) Soul Number is Six, the number that represents love, family, health and well being in our world.

September's (the word's) Letter Sum is Five the number that represents birth, change, sensuality and unexpected events.

How September adds up:

What this year's Seven energy offers us is insight and empowerment from other sources that are untraditional and hidden from our world of three-dimensional reality. Therefore, utilizing methods that allow us to pierce the barriers of the mind – and/or the veils to other dimensions and realms can allow us access to solutions that go beyond the normal dictates of our cultural hierarchy.

Because the veils to other worlds and dimensions will be thinner this month, we can more easily access our powers of intuition, clairvoyance and psychic awareness and "download" information that can help us find solutions for problems and situations confronting us. If you seek communication from angels, archangels, ascended masters and other Divine beings, this is a month when you can more easily receive insights and revelations. Ask for messages --- and be amazed when they arrive!

In the book *Angel Numbers 101* by Doreen Virtue, she offers the following as the message of highest potential for the Number Seven when it appears in your life:

"You're on the right path, and the outcomes will exceed your expectations!"

"The Number Seven is a sign that Divine magic is supporting you and opening doors of opportunity."

The probability of spiritual tests, both individually and collectively, is also at a high this month. This is especially true for you if you are transiting a Seven Personal Year or have the Number Seven prominent in your natal numerology blueprint. You – or groups of people who inhabit a region or country – may experience a sudden, unanticipated shift that will mandate a change from the status quo requiring an adjustment to what has been an accustomed lifestyle. If you experience this or if we see this happening to a collective group, it is important to avoid negative conclusions and view the change as having constructive and long-term blessings. Note it is other than my intention to be a doom-sayer; rather I choose to stress that it is mandatory to look at any occurrence as being an ultimate blessing even if appearances are totally to the contrary.

Seven rules water, electricity, electronics, the internet, aviation and things that are hidden in the earth such as oil, gas, precious metals and gemstones. Thus our newscasts are more likely to have one or more of these topics in the headlines in September. As I write this, several volcanoes in Iceland are in various stages of eruption, an event which will significantly impact air traffic patterns. This is definitely a way that "Seven" energy can show its presence!

The Bottom Line This Month –

Take advantage of this month's vibrations to create MAGIC in your life through your thoughts, your prayers, and your communion with Divine beings. Below are some "magic rituals" using the Number Seven. Many thanks to numerologist Gail Minogue and author June Burke for sharing these!

"Those familiar with the ancient science knew the significance of the number seven. There is magic within this number. When you draw the number seven, invisible power is released within this number. Author and mystic, June Burke, in her books regarding numbers and cycles, makes the point that seven represents man (the straight line) and matter (the slash mark across the top) united. It creates an invisible power point and creates a triangle within this power area. By using the number seven in your activities, you can create with united power. Here are a few examples:

Affirm a new thought in a series of seven. When you do, the subconscious reacts.

Repeat an affirmation 7 times a day for 7 days or 7 times a week for 7 weeks, or 7 times an hour for 7 hours. Whatever system you want to use with the law of seven, it will create this union. The best time to do this is before sleep. The conscious mind is tired and will not put up much resistance.

Days when the Universal Day Number is Seven this month and thus even more powerful days for affirmations are:

- Tuesday, September 9
- Thursday, September 18
- Saturday, September 27

This month may the power of Seven allow you to take off and travel to the destination of your dreams!
