

NANCY'S MONTHLY FORECAST

2017 resonates to the Number 10 which is a number of change and energy shifts. The Ten's base number is One, which, in its best sense resonates to leadership, originality and invention. Interpreted negatively, One's energy can result in anger, aggression, violence and explosive occurrences.

In a One year, things are initiated, but seldom completed. In fact, as we are entering a new nine-year cycle, we may not get the 'big picture' of this year's events until 2025. One encourages each of us to speak up and be heard.

One is a number of manifesting. It is shaped like the magician's wand. Some say that our thoughts and desires can manifest with lightning speed this year. This can be marvelous as long as your thoughts and desires are positive and authentic to you! Practicing "the power of positive thinking" can definitely pay off in a big way.

N-SIGHTS FOR SEPTEMBER 2017

THE BEGINNING

The Number Codes for September

The Universal Number Code for September is Nineteen (9 + 10 = 19) which reduces to the Number Ten, our Universal Year Number and which portends a potential auspicious new beginning. The Number Nineteen corresponds to The Sun tarot card which can signify rewards and the overcoming of obstacles.

September (the calendar month) is always the ninth month of the calendar year. In spite of this September 2017 being a month of new beginnings, we can also expect endings, trials and tests as well as gifts and rewards. Nine is also the number of universal love and brotherhood as well as service to others.

September's (the word's) Soul Number is Six which aligns with love, abundance and well being as well as the material world in general.

September's (the word's) Letter Sum is Six the same as its Soul Number detailed above.

How September Adds Up:

When I write about the Number One relevant to a period of time, what I post is invariably brief. That is because "One" is just a beginning. It is the seed sown and just starting to sprout. It is the egg that has been fertilized, but has not begun to grow into a recognizable embryo.

If you are expecting a full process of creation this month you are likely to be disappointed. Be alert, however, for a new idea, a new contact, a new resource, a new person, a new potential, a new avenue of procedure – or anything that is different from your area of experience to show up on your path.

Mercury goes out of retrograde on September 5th, but is not fully out of the retrograde shadow until the end of the month. Expect October to be a time when the gate opens for you to create the path of your desires.

Finally, I'm choosing to shine a spotlight on the influence of the Number One on us collectively. In my annual forecast blog published in January 2017, I stated, "One as a number in its best sense resonates to leadership, originality and invention. Interpreted negatively, One's energy can result in anger, aggression, violence and explosive events, both natural and manmade...One encourages each of us to speak up and be heard. Thus we are likely to find more people vocalizing their sentiments and demanding change -- or just to beat their chests and have their own way."

With our One vibration at its peak in September, let us pray that the positive aspects of One will dominate as we have already experienced way too much of One's negative manifestations this year. Each one of us can assist by keeping our words and thoughts positive and our actions peaceful.
