

## NANCY'S MONTHLY FORECAST

The year 2020 is ruled by the Number Four. (Two plus Two equals Four.)

Four is a number that represents stability and security. It demands that we follow the rules and proceed in an orderly sequence with our projects. Attention to detail is mandated as well as precision in the act of creation.

The two Zeros in the year "2020" indicate the enhanced power of the Number Four and the Number Two. Zero is considered the God number of creation and magnifies the impact of every number it accompanies.

The two Two's in our year number indicate that partnership and cooperation need to be part of our undertakings.

Two is the number of peace. It is only by joining with one or more people that we can count on seeing the results we seek. Individually and collectively we will need to work in tandem with others to realize our goals.

Regardless of the individual number transits in your personal numerology chart, you will need to rely on some kind of partnership or collaboration in order to realize the outcomes you seek.

As we are in a Two millennium and are entering a new decade ruled by the Number Two, the lessons of being connected plus cooperation and teamwork will be part of the soul lessons we will all be required to experience.

## N-SIGHTS FOR JANUARY 2020 LAYING THE FOUNDATION FOR CHANGE

How long does it take to change?

Two celebrated new thought leaders share their observations. See the video below.

January is a Five month in a Four year.

Five equals procreation, birth, change, inventiveness, risk-taking, exploration and freedom among other things.

Choose your life change goals.

What does it take to achieve them?

Set an action plan. Doing what you've always done will not work anymore. In order for you to change your life, it will be necessary to change your words, thoughts and behavior and deeds. A new, innovative approach is necessary. This is true for you personally and also for things to improve in our countries and our world.

We are in a new era. Even the "new normal" is becoming outdated due to the emergence of another "new normal."

**Set the intention that everything you need to effect your desired changes will show up for you with Divine timing.**

My annual forecast will be posted soon on my blog site and will explain more about the energies of our Four UniversalYear.

As Four is a number which requires laying a foundation for change, this month's Five does not require change as much as it requires us to determine what needs to change in our lives and the methods we will use to bring about our transformative goals.

Remember, as mentioned above, we are in a Two decade in a Two millennium, so whatever we plan to change in our lives will require some kind of collaboration or guidance from one or more people. We are in an era of partnership.

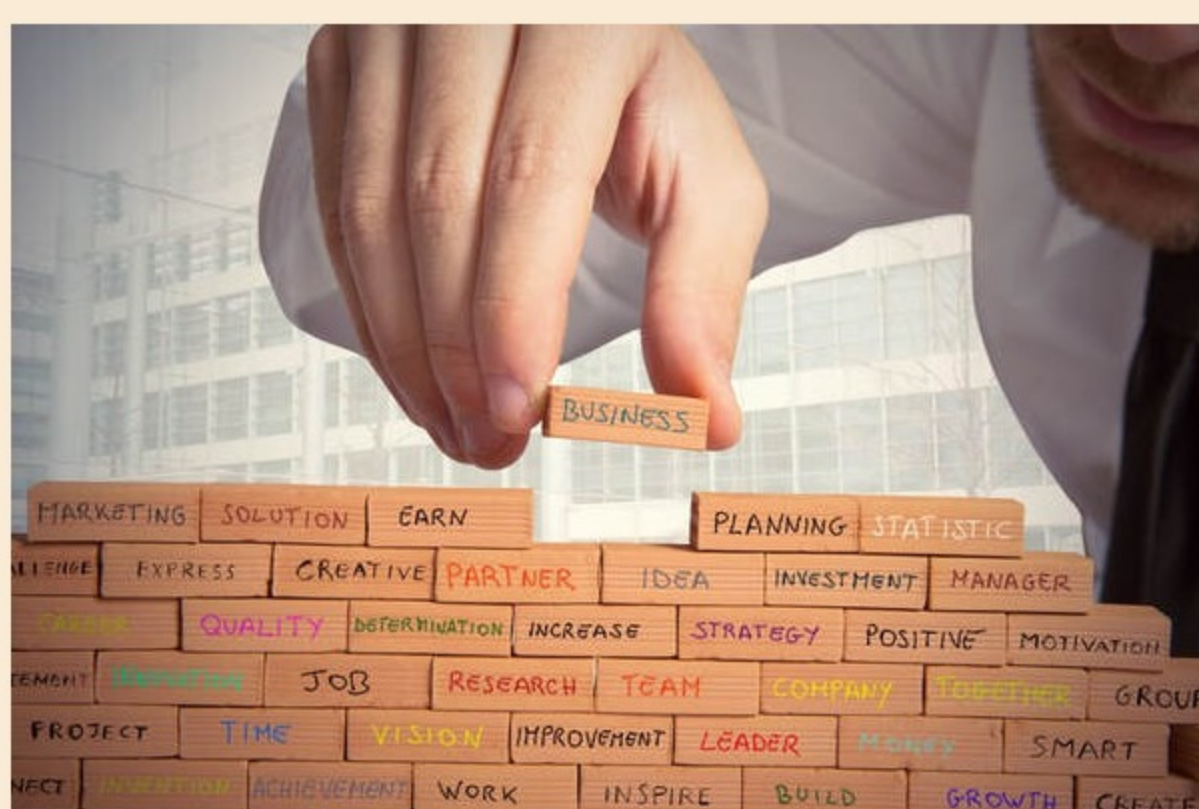

You will need to create new patterns of behavior -- new words, new thoughts, new habits, new deeds.

When you have done this, you can begin building your new life foundation
