

NANCY'S MONTHLY FORECAST

NANCY HARTLINE N-SIGHTS FOR OCTOBER 2013

NEW VISION

The Number Codes for October

October is a Universal Seven Month in a Universal Six Year. Seven is a number which relates to vision, spirituality, healing, solitude and accessing information from the realms of the unseen. The theme for this Universal Six Year has been the healing and integration of our male and female energies into balanced wholeness as symbolized by "The Lovers" which is found as the Number Six in many Tarot decks.

Art: Renee Thompson Designs

This month our progress arrives through a process of spiritual attunement and accessing the wisdom of Universal Mind. This is a collective process so each one of us is on our own path of progress determined by our soul journey and our destiny codes. There is no right or wrong place to be. However, for all of us, this is a month when answers arrive by giving ourselves time away from our routines and seeking out our sources of spiritual nourishment.

Artist: Unknown

The vibration of the number Ten accompanies October every year as it is the tenth month of the calendar year. Ten offers us a new start and a change of fortune. Thus, October always offers us an invitation to begin a new cycle.

NOTE: October is the only month of the calendar year which contains the Zero. Zero (or "0") is considered the "God number". It represents the all that is and intensifies the energy of any number or numbers it appears with.

The Soul Number for "October" is Number 17 which reduces to the Number Eight. Seventeen is the number of the Divine Channel which, when accessed, offers us revelations of Truth. It is also a number associated with Archangel Jophiel, the angel who assists us in keeping our thoughts beautiful and positive. Eight is the number of tests and mastery when we are in balanced alignment with both the material and spiritual realms.

Archangel Jophiel Artist: Unknown

"October" as a word adds up to the Master Number 33. Thirty-three is symbolic both of the Ascended Masters and the Christ consciousness which is Universal love raised to the highest level which is compassion.

So, as you can tell, October is always a very powerful month with its ongoing spiritual overtones and offer of a new beginning. It is said that October is considered "preview month" and that what you experience during October is a harbinger for the forthcoming new year.

Pay attention to the events of your life this month. If there are unwelcome occurrences, be assured that you are not doomed to a year of misfortune in 2014. However, events of October 2013 can offer you insights into forthcoming lessons and challenges that will be on your path to master next year.

SUMMARY:

What do you aspire to in 2014? And what is your vision for yourself and our world?

The achievement of your hopes and dreams rests on accessing the realms of spiritual truth with both your heart and your mind working as a harmonious team.

Practice keeping your thoughts loving and positive and sending waves of love and gratitude to everyone and everything in your life, especially when confronted with people and circumstances which arouse negative emotions and judgments within you. This does not mean condoning the people or circumstances; but if you can detach from the drama and emotion you will find that you become more calm, centered and able to focus on the good while tuning out the negatives of your life.

If you like working with angel energy, I encourage you to call on the Archangel Jophiel who will assist you in keeping your thoughts and your surroundings filled with beauty that inspires and rewards you.
