

NANCY'S MONTHLY FORECAST

2015 is ruled by the vibration of the Universal Number Eight. Eight governs money, power, the sexual principle, leadership, strength, justice, manifesting and mastery of all life skills. It also relates to large corporations, institutions, heads of state and the branches and functions of government.

N-SIGHTS FOR OCTOBER 2015

Circle of Humanity -- Andrea Smith, Artist

LOVE, , GENEROSITY, COMPASSION AND BROTHERHOOD

The Number Codes for October

The Universal Number Code for October is Nine, the number of completion and endings as well as love, generosity, forgiveness, service to others, and brotherhood.

October (the calendar month) is the Tenth Month of 2015 which offers the opportunity for a change in fortune.

October's (the word's) Soul Number is Seventeen which reduces to Eight. We are presented with the challenge of mastery of all life skills through being connected to Divine Source.

October's (the word's) Letter Sum is the Master Number Thirty-Three which reduces to Six. This number relates to being in service to humanity. Reduced to Six it symbolizes anything that contributes to abundance and well-being in our lives.

How October adds up:

In September we were remodeling our homes, spiritually speaking. In October, we are completing the process and adding the finishing touches.

And...as I always call to everyone's attention every October, this month is considered a "preview month" of the coming year. This year, October bears the Universal energy of Nine and offers us a month of completion, endings, lessons and tests. The themes that show up for us this month individually and collectively will be part of the challenges and rewards that comprise the coming year of 2016.

Collectively we are addressing worldwide situations where love and compassion are needed as well as prayers for peace wherever there is conflict.

Some issues and lessons that may show up for you (and all of us) are:

Love – both of self and others.

It is our task and responsibility to see ourselves as deserving of love and the type of lifestyles we yearn for. As we do the work to allow ourselves to be exemplifying an abundant life, we open the doors for others to have the same experience.

Giving and Receiving –

We will be learning to give and receive from our heart space not from a sense of obligation or fulfilling someone else's idea of what we should or shouldn't have or should or shouldn't give.

Letting Go -

Learning to let go of what no longer serves our good – whether people, places or possessions. In addition, the cosmic energies assist us in letting go of habits, behaviors, thoughts and/or belief systems that hold us back from achieving lives filled with love, abundance and fulfillment.

Forgiving –

Taking measures to forgive old hurts and grievances also frees us from the past and allows us to enter into more loving relationships in the future.

Appreciating and Attracting Beauty -

Learning to see and appreciate beauty in all its forms whether in nature, art, music or the apparel and objects that grace our homes allows us life enrichment that magnetizes more abundance into our lives.

The Bottom Line This Month –

Our real progress this month involves appreciation, generosity and gratitude on all levels of being – going beyond the mundane routines of our daily lives and connecting with Spirit on a deeper level to understand and bless all that is sacred and special in our lives.

The top of the Number Nine is a circle which represents Heaven. We are asked to create Heaven on Earth – a tall order, maybe, but individually and collectively, what a grand and noble aspiration!
