

## NANCY'S MONTHLY FORECAST

2016 is ruled by the vibration of the Universal Number Nine, the vibration of Universal love and brotherhood. Of all the single digit numbers, Nine vibrates at the highest level. It mandates tests of the soul and mastery of our experiences of the past eight years. Our path can present major challenges, but our rewards can be equally large. Keeping love, compassion and forgiveness in our hearts allows us to transit Nine's energy in a way that helps us to pass our tests with greater grace and ease.

October is a Number One Month in our Universal Year of Nine energy. October is always a month that gives us a glimpse into the energies of the year to follow. This October we are transiting the Number 19 which in Tarot symbolism stands for "The Sun." This is a sign of optimism and good things for the future – a welcome message after what for many has been a year of trials and tests.

October's (the word's) Soul Number is Seventeen which reduces to Eight. We are presented with the challenge of mastery of all life skills through being connected to Divine Source.

October's (the word's) Letter Sum is the Master Number Thirty-Three which reduces to Six. This number relates to being in service to humanity. Reduced to Six it symbolizes anything that contributes to abundance and well-being in our lives as well as a directive to meet our responsibilities to others.

#### How October adds up:

As noted above, this month's energy corresponds to the Number 19 (The Sun.). We can reduce this number to 10 ("The Wheel of Fortune") and further to its single digit number "1" (the Magician's Wand.) Anyway you look at it, October can bring us auspicious new energy and a window to the energies of 2017.

Do you remember how you felt when it was...

Your first day of a new school year?

Your first day of your new job?

Your first day with an exciting new romantic prospect?

You signed a lease or purchased a new home?

October is not necessarily a month to take action as it is to find a vision that brings you a high level of excitement when you anticipate that you be, do or have your vision manifest. This would be a month to assess what it would take for your vision to become reality and draw up an action plan. It is likely that it may take several years for your desire(s) to fully bear fruit. However, if you understand that the first step to achievement is having the vision, then you are setting the foundation for the new leg of your life journey that begins next year.
