

NANCY'S MONTHLY FORECAST

2017 resonates to the Number 10 which is a number of change and energy shifts. The Ten's base number is One, which, in its best sense resonates to leadership, originality and invention. Interpreted negatively, One's energy can result in anger, aggression, violence and explosive occurrences.

In a One year, things are initiated, but seldom completed. In fact, as we are entering a new nine-year cycle, we may not get the "big picture" of this year's events until 2025. One encourages each of us to speak up and be heard.

One is a number of manifesting. It is shaped like the magician's wand. Some say that our thoughts and desires can manifest with lightning speed this year. This can be marvelous as long as your thoughts and desires are positive and authentic to you! Practicing "the power of positive thinking" can definitely pay off in a big way.

N-SIGHTS FOR NOVEMBER 2017

BRING IN THE CLOWNS

The Number Codes for November

The Universal Number Code for November is Twenty-One ($10 + 11 = 21$) which reduces to the Number Three. The Number Twenty-One in tarot is often called "The World." It can be symbolic of cosmic consciousness and the dance of life that is constantly changing. Transformation to a new heaven and new earth are part of the process. The single digit Three is a number of joy, celebration, communication, creativity and play.

November (the calendar month) is the Eleventh Month of 2017 which offers us choices, master tests and portals to transformation.

November's (the word's) Soul Number is Sixteen which reduces to Seven. This is a vibration which supports major life transformation and spiritual epiphanies.

November's (the word's) Letter Sum is the Master Number Forty which reduces to Four. This number relates to the creation of higher levels of consciousness on all levels of being: physical, mental, emotional and spiritual.

How November Adds Up:

The reason I titled this forecast "Bring in the Clowns" is because the Number Three is symbolic of joy, laughter and fun. Goodness knows, after the past weeks of grim news both nationally and globally including the series of natural disasters affecting the lives of many, focusing on the lighter side of life can be extremely therapeutic!

In its best sense, Three brings us the gifts of beauty, love, and creative expression. Its energy relates to the heart, to sunshine, to children at play and to generosity – both in giving and receiving gifts. Three also relates to celebrations such as our forthcoming Thanksgiving holiday here in the United States.

Three in a One Universal Year encourages us to speak up and express ourselves. The best way, of course, is to do so in a positive, optimistic way. Remember, you can set the example for others.

It's also a good month to begin new creative projects as well as to do some holiday shopping early. (Next month is a practical oriented Four Universal Month – and we also have Mercury Retrograde at play.)

Finally, though, a word of caution: Three can cause us to scatter our energy, making it more challenging to focus on the practical mandates in our lives. In addition, the expansive nature of Three encourages overspending as well as magnified generosity. So, if you are holiday shopping (see above), it's wise to put yourself on some kind of budget.

If you are transiting a Three Personal Year – or if the Number Three is prominent in your numerology natal chart, the information in this forecast is especially relevant for you.

The Bottom Line This Month –

As much as possible, put work on the back burner and engage your inner child in playful activities. Focus on the good happy things in your life. Your doing so will help uplift the lives of others in countless ways that you may not ever know but which will have an effect of adding sunshine to our world.
