

## NANCY'S MONTHLY FORECAST

2015 is ruled by the vibration of the Universal Number Eight. Eight governs money, power, the sexual principle, leadership, strength, justice, manifesting and mastery of all life skills. It also relates to large corporations, institutions, heads of state and the branches and functions of government.

### N-SIGHTS FOR DECEMBER 2015

#### PEACE, CHOICES AND CHANGES

##### The Number Codes for December

The Universal Number Code for December in this year of 2015 is the Master Number Eleven which reduces to the Number Two. Eleven offers us a portal to transformation, and Two always offers us choices, especially regarding our relationships. This month we have the choice of whether we want to pass through the gateway of major change or simply to master the existing relationships in our life. Two always seeks to achieve peace through balance and harmony both within and in our external world.

December (the calendar month) is the Twelfth Month of 2015. Twelve reduces to the Number Three. Twelve advises us to pause and reflect. Three is the number of creative expression, abundance and the good things in life. Thus, with the Twelve and its companion vibration of Three, December is perennially a time when we put aside our routines to celebrate the holidays and, as December is the last month of the year, we review the events of our year just past and create new goals and courses of action for the year to follow.

December's (the word's) Soul Number is Fifteen which reduces to Six. Fifteen reminds us of our responsibilities to others and mandates choices about how much it is appropriate to give without throwing our own energies off balance. Six is part of the Holy Trinity of Divine Love and represents love in all its forms as well as beauty, nourishment and well being. The Six energy is especially appropriate for our month of December inasmuch as we are focused on peace and good will, giving and receiving with grace, adorning our homes with beauty and feasting on special treats.

December's (the word's) Letter Sum adds up to Thirty-Seven which reduces to Ten, the number that indicates a change in fortune. Thus December offers us the opportunity to "begin again" as we reach the new year ahead.

##### How December adds up:

As mentioned above, the dominant universal number energy for December is the Number Two. At a higher vibration (8 + 3) the dominant number is Eleven, the number of peace and inspiration. At an even higher vibration (8 + 12), we are transiting the Number Twenty, an energy which I call the "partner with God" number.

However you choose to interpret the December energies, it is evident that there is a high correlation between celebrating "peace on earth" and the December vibrational matrix for this 2015.

What better time of year to focus our energies on both peace for our entire world population and peace and well being in our own lives? Something that I do whenever I hear of conflict in the world – or when I encounter upsets in my own life is to adopt the mantra of "peace" – repeating it over and over – aloud if appropriate or silently if not. I also call on the Archangel Raguel who is the angel of peaceful relationships and as well as call on Archangel Chamuel who, among his specialties, is an angel of world peace.

The Number Eleven (or Two) is also a number of choice and life change. Many of us will be offered opportunities to change our lives for the better this month. Often this involves leaving behind people, jobs, homes or environments in order to create improved lives which can take an act of courage to accomplish.

One aspect of December's numbers that can appeal to everyone is that the Three Universal Month Number combined with the Eight Universal Year Number can be interpreted as a "sign" of "luck with money." This, of course, will not be true for everyone. But – if you're feeling optimistic, watch for unexpected money or gifts coming your way – -- or buy a lottery ticket if you get an inner hunch that good fortune wants to smile on you.
