

NANCY'S MONTHLY FORECAST

2016 is ruled by the vibration of the Universal Number Nine, the vibration of Universal love and brotherhood. Of all the single digit numbers, Nine vibrates at the highest level. It mandates tests of the soul and mastery of our experiences of the past eight years. Our path can present major challenges, but our rewards can be equally large. Keeping love, compassion and forgiveness in our hearts allows us to transit Nine's energy in a way that helps us to pass our tests with greater grace and ease.

The Number Codes for December

December is a Number Three Universal Month in our Universal Year of Nine energy. After the intense vibrations of November, December offers a welcome change. Three is the number of creativity, sunshine, joy and celebration. It is the perfect number to have with us when we pause to partake of holiday festivities. Good will, beauty and generosity can prevail.

December's (the word's) Soul Number is Fifteen which reduces to Six. Fifteen reminds us of our responsibilities to others and mandates choices about how much it is appropriate to give without throwing our own energies off balance. Six is part of the Holy Trinity of Divine Love and represents love in all its forms as well as beauty, nourishment and well being. The Six energy is especially appropriate for our month of December inasmuch as we are focused on peace and good will, giving and receiving with grace, adorning our homes with beauty and feasting on special treats.

December's (the word's) Letter Sum adds up to Thirty-Seven which reduces to Ten, the number that indicates a change in fortune. Thus December offers us the opportunity to "begin again" as we reach the new year ahead. This is especially true for us this year as 2017 is slated to be a Number One Universal Year vibrating to the higher octave of Ten. A whole new nine year cycle begins for us in January, and December paves the way for it to begin.

How December adds up:

After all the drama and trauma of November – and even this past Nine Universal year of upheaval and endings, it is most appropriate for us to take time off to – as much as is possible – enjoy the good things of life. This is a time of year when traditionally we take time away from our routines to celebrate holidays with family, friends and loved ones. This month's Three dominating vibration is all about enjoying the beauty and pleasures of life – so perfectly timed for December 2016.

A word of caution: The Three energy can cause us to get so caught up in the delights of the season that we can easily be tempted to overspend and overindulge. Forewarned is forearmed, I say!

Also, a reminder: Mercury retrograde begins on December 19 (lasting to January 8.) If you can, select your gifts, buy electronics, and make travel plans early in the month. Hone your patience and sense of humor for any delays and any Mercury mischief you may encounter.
