

NANCY'S MONTHLY FORECAST

2017 resonates to the Number 10 which is a number of change and energy shifts. The Ten's base number is One, which, in its best sense resonates to leadership, originality and invention. Interpreted negatively, One's energy can result in anger, aggression, violence and explosive occurrences.

In a One year, things are initiated, but seldom completed. In fact, as we are entering a new nine-year cycle, we may not get the 'big picture' of this year's events until 2025. One encourages each of us to speak up and be heard.

One is a number of manifesting. It is shaped liked the magician's wand. Some say that our thoughts and desires can manifest with lightning speed this year. This can be marvelous as long as your thoughts and desires are positive and authentic to you! Practicing "the power of positive thinking" can definitely pay off in a big way.

N-SIGHTS FOR DECEMBER 2017

PLANNING NEW FOUNDATIONS FOR 2018

The Number Codes for December

The Universal Number Code for December is Twenty-Two, (10 + 12 = 22) which reduces to the Number Four. The Number Twenty-Two in Tarot is often called "The Fool" and portends starting off on a new venture (or adventure) with optimism and confidence, though being unaware of the potential pitfalls ahead. This card is also referred to as the Zero and represents the beginning of a new cycle of growth. The Number Twenty-Two is also referred to as the "Master Builder" number as well as the "Architect of Peace" number, because Two is the number of peaceful accord.

December (the calendar month) is the Twelfth Month of 2017. Twelve reduces to the Number Three. Twelve advises us to pause and reflect. Three is the number of creative expression, abundance and the good things in life. Thus, with the Twelve and its companion vibration of Three, December is perennially a time when we put aside our routines to celebrate the holidays and, as December is the last month of the year, we review the events of our year just past and create new goals and courses of action for the year to follow.

December's (the word's) Soul Number is Fifteen which reduces to Six. Fifteen reminds us of our responsibilities to others and mandates choices about how much it is appropriate to give without throwing our own energies off balance. Six is part of the Holy Trinity of Divine Love and represents love in all its forms as well as beauty, nourishment and well-being. The Six energy is especially appropriate for our month of December inasmuch as we are focused on peace and good will, giving and receiving with grace, adorning our homes with beauty and feasting on special treats.

December's (the word's) Letter Sum adds up to Thirty-Seven which reduces to Ten, the number that indicates a change in fortune. Thus, December offers us the opportunity to "begin again" as we reach the New Year ahead.

How December Adds Up:

Although traditionally December is a month when we pause from our daily routines to partake of holiday festivities, this month's Four vibration casts a more serious tone to this season of celebration. Four is all about work and responsibilities as well as financial prudence and practicality. I realize that this sounds like we have invited the energy of Scrooge into our lives, but take heart, there is virtue in choosing a safe and sure journey through this month.

Although we all are on our own path – and some of you may be less affected by the prevailing somber Four vibration, there's no doubt that December is likely to have some serious overtones that can dampen our spirits – at least a little bit.

Mercury Retrograde is in effect from December 2 to December 22, lending its trickster presence to the mix. So what's the best way to make the most of this month? The answer: Follow the rules we are given. These can include:

Be practical and watch spending frivolously.

Make sure you are meeting your responsibilities re career and family.

Pay attention to your diet. This is not a month for excess in food and drink.

Follow the usual Mercury retrograde protocols and keep your sense of humor if there are mix-ups regarding communications and travel plans.

This can be a time to complete pending projects.

The Twenty-Two of this month's compound number total instructs us to maintain a goal of peaceful relationships first and foremost in our daily routines. The traditional holiday slogan of "peace on earth, good will to men" can be a meaningful reminder if you encounter relationship turbulence this month.

It can also be a time to gain the vision of new ventures you would like to embark on in 2018. This month's 22/4 energy plus next year's Universal 11/2 vibration offers a strong suggestion that partnerships and teamwork will be on most of our agendas.

Taking the time to define your goals and the companions you would like to be surrounded with can help you get a head start on the new year. Plans formed this month will likely not get under way until February 2018 or later.

Cosmic Events Affecting Us This Month

Sunday, December 3 Full Moon in Gemini (A Super Moon!)

Tuesday, December 18 New Moon in Sagittarius

Holidays and Observances

Tuesday, December 12 Hanukkah Begins

Thursday, December 21 Winter Solstice
